
PRE-INCIDENT PLANNING

Taught to NFPA® 1620 Standard for Pre-incident Planning

OVERVIEW

This course is designed to bridge the gap between general planning and response. Through hazard analysis, planners and responders will develop a product that enables first responders to take immediate protective actions.

Objectives

- Conduct effective pre-incident planning
- Implement NFPA® 1620 framework and process for planning
- Determine how a pre-incident action plan enables decision making
- Apply best practices that can convert data to useful information
- Organize valid data and information for inclusion in the plan
- Establish system for sharing pre-incident plans with responders
- Design and develop a complete pre-incident plan

Topics:

- Case studies
- Sources of data
- Analysis methods
- NFPA® 1620 Standard
- Applicability of pre-incident plan
- Observation, interview and survey techniques for hazmat facilities
- Incident action planning to include public protective actions and mass notification
- Field facility survey, interviews and observations to include documentation and analysis

COURSE OFFERINGS

Pre-incident Planning Awareness Seminar

Understand Pre-incident planning process and best practices
125 Participants Max per Course
1-Day Course

Pre-incident Planning Practical Workshop

Apply planning skills to conduct analysis and develop Pre-incident Plans
20 Participants Max per Course
2-Day Course

Pre-incident Planning Advanced Field Workshop

Develop Pre-incident Plans from field surveys, interviews, analysis methods
15 Participants Max per Course
2-Day Course

PREPARED TODAY, RESILIENT TOMORROW.

PREPARING COMMUNITIES SINCE 2005

ASG delivers innovative solutions for complex environmental, health, safety, & emergency management problems.

OUR EXPERTISE

Crisis & Emergency Management
Risk-based planning, training, & exercises

Environment, Health & Safety
Risk reduction, pollution prevention

Hazmat / CBRN Response
Innovative planning, modeling, & training

Unmanned Aircraft
Enhanced situational awareness

Risk & Vulnerability Assessments
Informed decision-making

OUR APPROACH

Assess
Risk & capability gap analysis

Plan
Strategic operations & response

Build
Capabilities & capacity

Train
Competency-based training

Audit
Realistic exercises & assessments

Improve
After-action reporting
