

ASG is currently seeking experienced a **Public Health Educator III (Senior Scientist)** to provide support services globally. Our growing company develops a wide array of innovative solutions to the challenges faced by our clients. We are seeking smart, adaptive people to work collaboratively with a multidisciplinary and geographically dispersed team.

Successful applicants will assess the Health Promotion and Wellness needs and improvements to services, provide input for program development and create opportunities to engage in Health Promotion and Wellness topics, evaluate the effectiveness of programs and educational materials as they are used, and produce training programs for NMCPHC health professionals' community. They will collect and analyze data to learn about their audience and improve programs and services, and work with program administrators to improve Health Promotion and Wellness policies that promote health.

The successful applicant must be able to multi-task, prioritize tasks with occasional interruptions, and work beyond normal business hours when required to complete essential responsibilities.

**Requirements:**

- **Education:** Master's degree in exercise physiology, nutrition, health education, health promotion, public health, community health, psychology, community health nursing or a health related profession.
- **Experience:** Minimum 5 years' experience as a health educator in larger community based Health Promotion environment
- Knowledge and experience developing and evaluating HPW programs based on social and behavioral science theories, such as the health belief model and trans theoretical model, to provide technical assistance in assessing health promotion outcomes, and arranging and making site visits to monitor and evaluate HPW programs.
- Experience collecting, analyzing, interpreting and evaluating data to assess trends and developments.
- Effective communication and public speaking skills
- **Preferred Qualifications:**
- Expert knowledge of medical home model philosophies
- Experience developing and analyzing needs assessments for program planning, assessing health status, identifying health risks, identifying resources, cost containment, and establishing priorities for disease prevention.
- Experience as principal investigator for grants or program manager for HPW, community health, and chronic disease prevention programs with established proficiency
- Advanced experience with Healthy Eating, Active Living, Tobacco Free Living, Reproductive and Sexual Health, Psychological and Emotional Well-being, Injury and Violence Free living, Preventing Drug Abuse and Excessive Alcohol Use and Medical Home model services.
- Expertise drafting of policy, regulations, instructions, standards, and guidelines related to HPW program issues.
- Advanced experience leading, organizing, and participating in multidisciplinary teams that assess risk, conduct needs assessments, analyze data, develop content for educational programs, draft policy guidance, and evaluate outcome measures.

**Benefits:** A full benefits package to include, PTO, Medical, Disability, Retirement Plan and more.

**Relocation support is not available.**

**Travel:** Less than 30%

**Security Clearance:** Applicants selected will be subject to a security investigation and will need to meet eligibility requirements.
