CREATING ECONOMIC RESILIENCE FOR TRIBAL NATIONS

FEMA COURSE PER-311

**EQUIPPING TRIBAL LEADERS WITH
TOOLS, RESOURCES, AND
REFERENCES TO CREATE ECONOMIC
RESILIENCE**

Course Overview:

This course equips Tribal participants with tools, resources, and references to create economic resilience at the micro- and macro-economic levels. The course provides economic development, business, and community resilience stakeholders with a disaster risk reduction tool that can be applied for local businesses and industries. Each lesson provides an opportunity for application of a business/industry disaster risk assessment, impact analysis, and mitigation measures to develop strategies for risk reduction and resilience that are specific for Tribal Nations. Participants will learn how to assess disaster risk for their Tribal Nation and throughout their supply chain and customer segments. The course content is customized for Tribal-related risks and industries, and practical exercises enable participants to apply the risk reduction method at the business and community level to enhance economic resilience.

Course Scope:

This course will equip economic development, business, and government stakeholders with resources to assist the business community in addressing the disaster risks to their operations and enhance resilience.

Target Audience:

The target audience includes leaders and decision makers from the public and private sector to include:

- Business leaders
- Industry associations
- Tribal government leaders
- Economic development organization personnel

Course Core Capabilities:

- Risk and Disaster Resilience Assessment
- Threats and Hazards Identification
- Economic Recovery
- Community Resilience

Course Details:

- No prerequisites required
- Course Length: 1.5 hours
- Live-instructor training

Certification:

A certificate will be issued to participants who successfully complete this course.
